Caunton Engineering Limited  
Caunton House, 2 Coombe Road  
Moorgreen Industrial Park  
Newthorpe, Nottingham  
NG16 3SU

Caunton Engineering is one of the UK's leading steelwork contractors, fabricating in excess of 40,000 tonnes per annum with a turnover in the region of £100m. Supported with over 50 years' experience we specialise in the design, fabrication and erection of structural and secondary steelwork, operating across all sectors of the construction industry.

Caunton Engineering's reputation is for engineering excellence in the Design and Build sector and working with Consulting Engineers on major developments.

We pride ourselves on our ability to remain agile and, as a result, offer a personalised service to our clients. The company is a Gold Status holder within the Steel Construction Sustainability Charter and committed to delivering Net Zero by 2050.

## CE Marking & Welding Accreditations

The construction industry faced one of the most significant changes for a decade as CE Marking of construction products is now mandatory for fabricated structural steelwork, including secondary steelwork.

Caunton are able to provide a CE Marked structural steel products to EN1090-2 EXC 4 now, including constituent products such as structural fasteners and cold rolled for CE Marked Structural Steelwork.

Caunton Engineering, are certified to EN1090-2 EXC 4 for CE Marking and ISO 3834-2 Welding Quality Management System and can assure our customers that their insurances, bonds and warranties will not be invalidated.

You must comply with the Construction Products Regulation to ensure that you are not breaking the law. Failure to do so invalidates insurances, bonds and warranties.

## Staircases and Hand Rails

Steel Staircase Structures, with a range of tread options and handrail options. Fabricated "piece large" for speed of installation, or "piece small" for those restricted sites.

# Access Walkways and Gantries

Works include access stairs, ladders, flooring, hand railing, both in conjunction with new frame buildings or within an existing building.

## Cat Ladders

## Platforms & Plant Support Structures

We have the experience to co-ordinate with other trades in a 3D BIM environment to ensure that there are no clashes within the frame, such as pipe and penetration clashes. We also have the facility to trial erect structures prior to delivery / shipping overseas to ensure that the
