Steel Tonnage

650 tonnes

Caunton worked together in partnership with Interserve to secure this prestigious office development in the centre of Woking for Alliance Properties Ltd. The six storey development was converted from the originally specified pre-cast concrete structural frame and comprised of 650 tonnes of structural steelwork.

Caunton designed, fabricated and erected the office development of which long span floor beams of up to 16 metres long were utilised to achieve the client's requirements for a totally open plan office.

Careful planning was required for the delivery of steelwork as the congested site was surrounded by busy roads and existing buildings. Caunton managed to meet the demanding programme.

Caunton Engineering Ltd.

Caunton House, 2 Coombe Road, Moorgreen Industrial Park, Newthorpe, Nottingham NG16 3SU
