

**Unilever Headquarters - Leatherhead**

.....  
**Contractor**

Bowmer and Kirkland Limited

Caunton Engineering worked for major contractor Bowmer and Kirkland on a development which the two companies originally designated Project Pluto. This was a state of the art Headquarters for Unilever, situated in the Leatherhead Office Park, Surrey.

.....  
**Architect**

De-novo Architecture Limited

The project Pluto was a challenging multi-storey contract for Caunton who supplied over 1,200 tonnes of steelwork for the Headquarters, which was speedily completed in 2007. Caunton were also contracted to supply the metal floor decking. Architect, De-Nova embellished the structure by introducing exposed circular columns and has introduced two appealing podium areas. Another feature that the client demanded was an under-croft car park located below the main framework.
