

Greggs Bakery - Glasgow, Scotland

.....	Caunton Engineering supplied the structural steelwork for a major Bakery for Greggs in Scotland.
Client	
Greggs Plc	
.....	
Contractor	Greggs Plc was one of the UK's best known bakers and was reported to be the largest bakery retail company. The company first started in Newcastle and had a large base in the North East and Scotland.
Clegg Food Projects	
.....	
Architect	In June 2006, as part of an expansion and update of facilities, Greggs decided to relocate the company's main Scottish bakery from the Rutherglen bakery in Glasgow to a new purpose built site 2.5 miles away on the Clydesmill Investment Park.
Cox Freeman Partnership	
.....	
Engineer	
Rigby & Partners	
.....	
Steel Tonnage	The expanded bakery gave a good base for a rapid shop expansion programme across central Scotland, which allowed for an increased production efficiency.
500 tonnes	
	Caunton supplied 500 tonnes of steelwork for a lattice truss framework configuration.
